

# CURRICULUM VITAE

## PERSONAL DETAILS

Name: Steven Koerts

Email-private: -----

Email-public: [info@stevenkoerts.nl](mailto:info@stevenkoerts.nl)

Phone: -----

Address: -----

Date of Birth: 11 oktober 1997

Website: <http://stevenkoerts.nl/>

For more detailed information you may contact me by email

## PROFILE

At the moment I am studying computer science at the Rotterdam University of applied science(Bachelor), the reason that I chose this program is because I was looking for a both technical and creative study. If you make a website for example, then you can work on the internal structure (server-side) or on the design of the site(front-end). Both are needed to setup a successful website. I started programming in 4<sup>th</sup> grade of high school, besides programming I am also engaged in acting in the theatre on an amateur level.

## PROGRAMMING LANGUAGES

Right now I manage quite a lot of programming languages, frameworks and tools. At school we mainly focus on how to program and how to build a system, not what to use to build a system. That is up to the developers to figure out, with a wide range of different programming languages there are plenty of solutions to choose from for a specific problem. Currently I have experience in the following programming languages, tools and frameworks: HTML, CSS, Javascript/Typescript, PHP, C#/ASP.NET, Entity Framework, React.js, Nativescript, React Native, Electron, Bootstrap, Python, pygame, Tensorflow, Django, Java, Kotlin, SQL and MongoDB.

## EDUCATIONS

Period	Education	Status
2016 t/m 2020	Computer Science Hogeschool Rotterdam HBO, Bachelor	Graduate
2010 t/m 2015	Groen van Prinsterer Lyceum Vlaardingen HAVO/ High School	Finished

## EXPERIENCE

Periode	Baan	Werkgever	Omschrijving
Augustus 2018 - February 2019	Internship at Teqplay, as software engineer	Teqplay B.V.	This was an internship for an IT startup Teqplay for, it was school related. Teqplay is a company that focusses on big data in the harbor of Rotterdam and global.
Novembre 2017 - June 2018	Teacher in programming for kids with autism	Foundation Acato Rotterdam	Acato is a foundation for children with autism, I made myself available to teach programming to the children who would like to learn.
November 2017 - Januari 2018	Teacher in robotics with Arduino	Kralings Lyceum Rotterdam, Technasium	Teaching kids from HAVO/VWO first and second year highschool, who are interested learning to build and program a robot with Arduino

## HOBBY'S

Furthermore, besides my study, I am also involved in amateur theater, I started when I was 12 years old at a local amateur theatre school in Schiedam. I have participated in numerous theatre productions. I also like location theatre and street theatre, because then you bring the theatre to the people. Instead of that the people have to go to the theatre. The theatre is a way for me to express myself and play somebody else. I also am also featured as extra in some Dutch movies and TV series, it is fun to be part of the film crew and see how one movie can take over part of the city. I have played in De Fractie, Icarus and Flikken Rotterdam.

Further I try to sport a couple of times a week, I am into distance running and usually run like 10 kilometers, I have ran a couple matches in Rotterdam and once volunteered at the marathon of Rotterdam. I also like to sail, so every Saturday I can be found on board by Seacadetcorps Schiedam.
